"DE LAITTE" PETROL-AIR-GAS PLANT.

DRIVEN BY FALL OF
WEIGHTS LIKE THE
GRANDFATHER CLOCK.

ABSOLUTELY SELF-
CONTAINED. EVER READY
YET NEVER WASTEFUL.

PETROL GAS is simply petrol vapour mixed with a very large proportion of AIR. Air costs nothing—MOTIVE POWER costs nothing.

"DE LAITTE" is the only satisfactory system now recognized and used throughout India and elsewhere for—
LIGHTING by means of incandescent mantles of varying candle powers. The colour of the light is beautifully pure white, free from ultra-violet rays.

HEATING in College, School and Research Laboratories, etc. The Gas produced is highly effective for use with Bunsen Burners, Blow-pipes, Furnaces, Autoclaves, etc.

COOKING in country houses, clubs, hospitals, etc., for heating the rooms, warming water for baths, far more efficiently and economically than electricity.

Plants driven by electric motor, hot-air motor or hydraulic motor can also be supplied. Full particulars, estimates, etc., on application.

REGISTRATION OF RIGHTS TO LAND.

An Introductory Note on this important subject has recently been published

By

MOORE'S MODERN METHODS, LTD.,

12, Saint Bride Street, London, E.C.4.

THIS Note briefly examines the three principal methods of transfer and record of rights to land, viz., private conveyancing, registration of deeds, and registration of title to land, with a view to illustrating the advantages of the last method, more particularly by reference to the famous Australian Reform initiated by Sir Robert Torrens. Copies of this Note will be sent to any public officers who are interested.

The method of Registration of Title to Land advocated is a system which in common with others requires efficient application to be successful. But it is readily adjustable to the needs of any country and any legislation, if the conditions obtaining locally and the principle of the system have been carefully studied in relation to each other; and it is the only system which can provide an exact, permanent, up-to-date and guaranteed record of Rights to Land. Its operation, when established, should be entirely self-supporting, and economical to those whose rights are recorded. Enquiries regarding the administration and technical operation of the system will be answered by the Firm's Technical Consultants without charge and without any obligation being incurred.
